SUMMARY

Versatile and detail-oriented software developer skilled in Java, Spring Boot, and backend system design. Experienced in building scalable, secure, and high-performance applications using microservices, REST APIs, and cloud technologies. Strong problem-solver with hands-on experience in full-stack development, database management, and end-to-end deployment. Committed to delivering clean, reliable code and contributing effectively to collaborative engineering teams.

SKILLS SUMMARY

Languages: Java, Python, JavaScript, C, C++

Backend: Spring Boot, REST APIs, Microservices, SQL Optimization, Hibernate

Frontend: React.js, HTML, CSS

Databases: MySQL, PostgreSQL, MongoDB

Cloud Tools: AWS (EC2, S3, IAM), Git, GitHub, Maven

Data Tools: Pandas, NumPy, Matplotlib

Core Strengths: OOP, usability-focused design, accessibility awareness, performance tuning, debugging, problem-solving, Agile collaboration.

EXPERIENCE

Backend & Web Engineering Intern

November 2023 – May 2024

Innovative Technology

Vijayawada

- Improved backend response times by 20% through REST API optimization and SQL query tuning.
- Enhanced overall system responsiveness by approximately 30% using MySQL indexing and caching strategies.
- Integrated frontend and backend components using HTML, CSS, JavaScript, and Java to improve usability and accessibility.
- Collaborated with a 6-member Agile team on feature development, testing, and code reviews to ensure smooth product delivery.
- Automated reporting dashboards, reducing manual analysis efforts by 40% and strengthening operational efficiency.

Data Engineering & Analytics Intern

April 2025 – June 2025

ALTAIR Data Science Master Virtual Internship

Vijayawada

- Processed and analyzed 50K+ records while building an end-to-end data pipeline involving data cleaning, visualization, and modeling.
- Improved model interpretability by 35% using PCA-driven dimensionality reduction techniques.
- Designed user-friendly dashboards that reduced data exploration and reporting time by 50%, following user-centered design principles.
- Delivered clear analytical insights through structured reports and visual summaries for cross-functional stakeholders.

PROJECTS

Pet Adoption Platform

Jun 2025

MERN Stack Web Application

- Built a responsive and accessible pet adoption platform using MERN stack, enabling users to browse, filter, and adopt pets.
- Improved data retrieval speed by 25% through optimized MongoDB indexing and efficient API routing.
- Implemented secure backend routes, error handling, and user-centered UI components for seamless interactions.

Music Streaming App

Apr 2025

Full-Stack Web Application

- Engineered a microservices-based music streaming platform using ReactJS, Spring Boot, and MySQL for scalable and reliable performance.
- Implemented JWT authentication, playlist management, and low-latency audio streaming with < 120ms API response times.
- Deployed services on AWS achieving 99% uptime during testing, ensuring reliable real-time access.

Supermarket Billing System

Nov 2024

Java Swing & JDBC Desktop App

- Developed a desktop billing system that reduced checkout and invoice processing time by approximately 35%.
- Implemented secure login, automated invoice generation, and error-free transaction workflows using OOP principles.
- Integrated MySQL backend for consistent data accuracy and reliable storage operations.

Blood Bank Management System

May–Nov 2023

React Web Application

- Created a cloud-backed platform for donor management, blood tracking, and real-time inventory monitoring.
- Reduced manual stock verification time by 50% through automated workflows and intuitive UI components.
- Hosted on AWS for low-latency access, improved scalability, and reliable performance.

EDUCATION

KL University

Vijayawada, AP

Bachelor of Technology in Computer Science and Engineering - CGPA: 9.3/10

2024 - 2027

Usha Rama College of Engineering and Technology

Telaprolu, AP

Diploma in Computer Engineering - 80%

2021 - 2024

CERTIFICATIONS

AWS Academy Cloud Foundations

26 April 2022

Amazon Web Services

- Verify Credentials

Spring Framework Certification

April 2025

LearnQuest

- Verify Credentials

Data Science Master Virtual Internship

April – June 2025

ALTAIR

- Verify Credentials

Oracle Certified Professional

September – October 2025

Oracle

- Verify Credentials

Essentials Automation Certification

October 2025

Automation Anywhere

- Verify Credentials
